

Jai Industries

We at Jai Industries have a wide product basket from our Solid Wood Working & Panel Processing machinery range to offer. Jai is constantly innovating on machineries and exploring ways to reach-out to customers to make them feel the whole experience of dealing with Jai fully satisfactory for them. In this exhibition, other than regular & fast moving quality proven machines, we will be exhibiting recently launched some of the new models. To name them; Trio-12 three side thickness planer, Chain -n -Chisel mortiser, Tenomac-S tenoning machine from our **Wudpro** range. (Auto) Edge bander & Throughfeed Roller Press from **Modula** Range & Panel Saw with 10 years guarantee on precision sliding table and single sided automatic edge bander with radius function from the JAI-SCM range.

We did not want to miss an opportunity to make our base stronger in the western part of India mainly Maharashtra, Rajasthan & Gujarat region. We are confident that large number of visitors & potential customers visiting us will definitely realize that **“in the midst of Indian & European brands, JAI is the best and biggest brand available in India through their core strength i.e. value-for-money, and products with value-added services”**. Therefore, we decided to participate in this regional trade fair MUMBAIWOOD 2013.

Visitors can expect a **ONE STOP SOLUTION** at this Western India's premier woodworking show for their requirement (s) whether they are from large-medium sized wood working industry OR from a small furniture workshop .IT IS ALL THERE! Kindly visit us @ Hall # 01, Stall # B201
