

New, expanded, exclusive JAI machine-mall for Kerala

In the matters of wood-working and panel-processing, India works on Jai machinery. Since decades machines of Jai brand are available all across India. Jai Industries, the company, has always believed in complete customer satisfaction. So, even before liberalisation of 1990s, when the markets were sellers' markets; Jai Industry already had more than 120 dealers in its network! Catering to customer needs of fast delivery and timely spares & service support. For Jai this Kerala connection with 'QMS' is of 25 years' solid standing and strong bonding.

Recently inaugurated Jai-QMS machine-mall

'QMS', Quality Machines & Spares in Ernakulum, Kochi has opened a new exclusive JAI machine-mall of 5000 sq.ft. space. It's a dedicated special building, with all modern amenities and comfortable surroundings within, for customers' convenience. Located on prominent Chittoor road, a prime market for machinery, 'QMS' will now serve as 'the best destination' for machine selection for the wood-work industry of Kerala region. 'QMS' has always been one of the best set-up and one step ahead than other machinery shops in Kerala. It has 2 show-rooms and 3 warehouses to cater to a huge customer base it has created for Jai machinery as Jai's sales partner in this region. With this addition of machine-mall, Jai has now a big team of engineers and service staff to look after sales, installations, demonstration, training, spares and after sales service

Q.M.S. and Jai Industries' directors with their Ernakulum team

Jai Industries has such exclusive machine-malls in almost all major cities of states. You can visit any of the Jai machine-mall in these cities, Bangalore, Chennai, Cochin, Secunderabad, New Delhi, Mumbai, Indore, Kolkatta and the biggest in Asia at Ahmedabad – Jai’s corporate head-quarters. You can see-select n purchase a wide range of machinery from these machine-malls. All the entry level machines are on display at these show rooms and some machines’ live demo is also possible. While at ‘Pan’wood Grand machine-mall’, Ahmedabad you will see the complete range.

1. Jai Industries directors Nikhil Shah (L), Nirav Shah (R) 2. Hi-speed router 3. Panel saw 4. Double head multi boring 5. Spindle moulder (2 to 5 Modula m/cs.) 6. Scm-Panel saw 7. Scm-Edge bander 8. Turanlar - Throughfeed roller press... and many more.

Most important m/cs that one should see are from Jai’s ‘Pride of India’ range. Euro quality Panel Saw & Edge Bander are declared the best machines in India today. The overall product finishing, International standards of designs and precision performance of both these m/cs were awe inspiring. User friendliness and manoeuvrability of operations are at par with any European machine. There are some other m/cs in this range, plus overall Modula range (Pride of India is part of this Modula) has around 100 m/cs and models which can satisfy all the requirements of any panel processing unit. Modula has become one of the leading brand in India and is being exported to many countries. To offer a choice, Jai has brought two European giant Companies / their brands to India to give ultimate quality. SCM Group from Italy and Turanlar from Turkey. Among them they have some brilliant machines. This whole range of panel-process machinery is un-parallel in India. Also, you can buy from ‘Jai-WudPro’ range here. You cannot have these many m/cs, this much choices in models according to your requirement, budget planning from a single company other than Jai Industry. JAI in totality has ‘The Widest Range’ on offer. Future is even more exciting, with growing needs of these m/cs and growth of JAI as the most respected brand in this sub-continent.

No other brand is growing this good. No other range offers you these many options and no other machine you buy promises to provide you all the spares and services as and when you need it. Come to JAI, grow with JAI.
